CIRMS™

CAI National designation: Community Insurance & Risk Management Specialist

- A CIRMS designation is awarded by CAI (Community Associations Institute) to identify individuals in the insurance industry who have demonstrated the highest level of competence in community association insurance & risk management.
- Currently there are less than 100 CIRMS in the USA and only 3 Independent Agents in Southeastern PA have the CIRMS designation. All three work at Smith Insurance
- For community leaders this designation becomes a great assistance in identifying qualified individuals in the community association insurance & risk management field.
- Three Past Presidents of the Pennsylvania & Delaware Valley Chapter of CAI, as well as the 2013 President Elect work at Smith Insurance
- Our Associates represent Philadelphia area community association issues at the CAI National Conference and CAI National Legal Seminar every year
- CIRMS don't just sell insurance; they are advocates for Associations in the insurance industry on a local and national level.
